

# Stingray Business Web Player

## Music channels designed with your business in mind

Our all new web player allows you to stream unlimited background music legally in your commercial establishment. All you'll need to get started is a computer and an Internet connection. Designed for businesses and screened of inappropriate content, this budget-conscious solution requires little to no training and does not involve any wiring or installation.

- Choose from over 100 channels designed for businesses, in addition to 2000 channels from the Stingray Music catalog.
- Broadcast your content legally.
- Enjoy unlimited streaming in the highest quality digital audio.
- Navigate freely from one channel to another to change the mood in your business as the day unfolds.
- Bookmark your favourite channels.
- No ads, no talk. Just great music!

**New: choose our premium subscription and get access to two licenses per store! These licenses can be used on a computer or mobile device of your choice!**
