

PROFUSION MEDIA PLAYER

A COMPLETELY INTEGRATED MEDIA EXPERIENCE.

The future is here with the ProFusion® digital media manager. Powerful and affordable, this all-in-one solution is Stingray Business' latest system capable of delivering music, audio messaging, and HD video content.

The Profusion provides total control over what your customers hear and see. Flexible scheduling, dual-zone audio and single-zone video capability, management features, and more make it the only delivery system you'll need to provide an engaging experience for your customers.

Music Create the perfect vibe. No other commercial media manager comes close—high-fidelity and stereo sound capability.

Messaging Maximize the moment. On-site and on-hold music and messaging are seamlessly integrated to prevent abrupt interruptions.

Video Capture their attention. Music videos, HD atmospherics, or your own video content (ads, logos). The Profusion manages video content with accompanying audio in conjunction with your music program so the two don't compete for air time.

FEATURES & BENEFITS

Automatic Easy content management. Automatic scheduling allows you to change your vibe or tempo by the minute, hour, day, week, or season—switch your content schedule at any time.

Reliable Field and time-tested. The on-premise music players were pioneered with reliable, flexible software for commercial environments over a decade ago. ProFusion is field tested, and over 100,000 devices later, remains the industry leader.

Flexible Multiple update options. Secure Ethernet updates deliver data quickly, dramatically reducing the time it takes to receive music and message updates. The ProFusion also supports disc updates with an optional built-in DVD-ROM drive.

Powerful Multiple zone possibilities. Two zones of audio, each with independent scheduling capability, and one video output create a world of possibilities. Play music in one area and a different kind in another, or connect one audio output to your phone system for music and messaging on hold. And don't forget your video output.

Simple Effortless operation. Built-in display allows for easy adjustments to settings and show music, messaging, and video information. Automatic dayparting and other features make the profusion as hands-free as possible.
